## Description of the Middleton School District

- Middleton School District #134 encompasses approximately 100 square miles of area. The MSD #134 is located in a rural community and considered a medium sized Idaho School District. This unique rural bedroom community (population 4,166) offers a rare quality of life and is nestled in the Treasure Valley with two mountain ranges in full view. Middleton residents are within easy commuting distance (6-25 miles) of large industries and are surrounded by agricultural land. Highway 44 passes through town, providing easy access to I-84 (3 miles to the west) and to Boise and the State Capital (20 miles to the east), as well as easy access to health facilities, creative arts centers and accredited higher education facilities. Middleton has the distinction of being the oldest town in Canyon County and one of the oldest in the State of Idaho. The town plat was drawn up in 1863 by William N. Montgomery and aptly named Middleton because it was located midway between Boise City and old Fort Boise.
- During the past several years, MSD #134 has been among the fastest growing School Districts. Achievements in curriculum development, technology, teacher collaboration, media and patron communication, and professional development have brought the District to the attention of other Idaho and surrounding states as being a proactive, forward thinking District.

## Description of the Middleton School District (cont.)

- Class sizes are maintained at numbers close to the State recommended levels: K-3 grades (20 students), 4-5 grades (26 students), 6-8 grades (25 students) and 9-12 grades (22 students). Every Wednesday afternoon students are dismissed early and teachers collaborate. At the end of the third year of weekly collaboration, there is irrefutable data that this is time well spent, as it has made the difference for the students in many ways.
- The District's 2,900 students are housed in five schools (see item #2.0). Three elementary schools (Heights constructed in 1987, Mill Creek constructed in 1998 and Purple Sage constructed in 2003) educate 1,370 students. The one middle school (constructed in 1974) educates 710 students. The one high school (constructed in 1964) educates 810 students. Four of their five schools exceed capacity (see item #4.0) and the MSD #134 is currently adding portable classrooms (see item #5.0) until their bonding capacity builds up to allow a bond issue election for a new 1,550 student high school.
- The MSD #134 is working proactively with new housing developments and have received three future elementary school sites to build the District's 4th, 5th and 6th elementary schools. A sixty-acre high school site was purchased for a new school and will provide the needed secondary classroom space by allowing the existing high school building to become part of the Middle School campus, on or around 2011.

## Mission and Purpose of the Middleton School District Facilities

- Effective school maintenance protects the District's capitol investment, ensures the health and safety of the students and support the overall educational performance of the entire School District.
- As Idaho's school buildings age – they face the growing challenge of maintaining school facilities at an appropriate level, which enables the staff to meet the educational needs of their 21st century leaders.
- The Middleton School District Board and Administration have developed this ten-year facilities plan. It includes the construction of new facilities, renovation of the existing schools and the purchase of portable classrooms – all of which supports contemporary instructional practices. At the same time, they strive to maintain and fine tune, more advanced technological facilities demanding considerable expertise and commitment.

# Middleton School District BCEF Calculations

Below are the total calculations that combine the five school BCEFs'. The totals are then divided over ten years to balance out revenue vs expenditures (in compliance with HB 743).

<u>Schools</u>	<u>BCEF</u>	<u>Upgrade Costs</u>
Heights	92	\$361,000
Mill Creek	96	\$245,000
Purple Sage	98	\$129,000
Middle School	85	\$663,100
High School	84	\$1,461,200
<b>Totals</b>	<b>Ave. 91</b>	<b>\$2,859,300</b>
Ten Year Plan	$\$2,859,300/10 =$	\$285,930
*Five Year Plan	$\$2,859,300 / 5 =$	<b>\$571,860</b>

\*HB 743

Compliance amount = \$567,524 so a five-year **SOLUTION** plan would fit this new requirement.

## **HB 743 (Idaho Code 33-1019) School Facilities Act**

- This new bill was passed and went into effect on July 1, 2006. The act encompasses three measures: Bond Levy Equalization, School Facilities Maintenance Fund and the Public School Cooperative Funding Program.
- The School Facilities Maintenance Fund requires School Districts to set aside 2% annually of their replacement value of school buildings in a separate fund.
- The formulas and computation of this bill (as they apply to the Middleton School District #134) is included on the following page.
